Guiding Children’s Behavior

An overview of major milestones for children’s social and emotional development to understand the wide variety of influences on children’s behavior and learning, and plan intentional learning experiences to support positive social and emotional development.

This class will be held in English and is available to family child-care and center-based providers (infants, toddlers and preschool).

Mondays, 5/6, 5/13, 5/20
6:00 pm – 8:30 pm

Family Engagement

This series focuses on the important role that culture plays in developing connections and respectful relationships with families. Participants will reflect on the ways in which communication with families is expressed in programs and classrooms and the importance of respect, reciprocity and responsiveness. The qualities will help create and strengthen opportunities for family participation in programs and classrooms.

This class will be held in English and is available to family child-care and center-based providers (infants, toddlers and preschool).
